PROFESSIONAL SUMMARY

Results-driven Salesforce Developer with 3.5+ years of experience delivering enterprise-scale CRM solutions across compliance, government, and service domains. Expertise in Apex, LWC/Aura, Integrations, and Vlocity/OmniStudio using declarative and programmatic approaches. Hands-on with Agentforce, Salesforce AI, and Azure DevOps CI/CD. Proven track record of driving measurable business impact — **delivered solutions serving 500+ users with 40% process efficiency improvement** — through strong stakeholder collaboration and client-focused delivery.

SKILLS

Salesforce Platform: Administration, Security Model, Profiles, Roles, Permission Sets, Sharing Rules, Flows (Screen, Record-Triggered, Scheduled, Auto-launched), Validation Rules, Reports, Dashboards, Data Loader, Sales Cloud, Service Cloud, Experience Cloud, Governor Limits, Unit Testing, Change Sets

Development: Apex Classes, Triggers, Test Classes (90%+ coverage), LWC, Aura Components, Visualforce Pages, SOQL, SOSL, Batch Apex, Queueable Apex, Future Methods, Scheduled Jobs, Custom Metadata, Custom Settings, Platform Events

Integrations & APIs: REST API, SOAP API, Bulk API, Streaming API, JSON/XML, Outbound Messages, Callouts, Named Credentials, Auth. Providers, Connected Apps, Third-Party Integrations

AI & Automation: Agentforce (AI-Driven Automation, Intelligent Workflows, Agent Actions), Einstein Features, Prompt Builder, Salesforce AI Associate, Process Automation & Optimization

Tools & DevOps: Azure DevOps (CI/CD Pipelines, Release & Deployment Management), Git, GitHub, Version Control, VS Code, Salesforce CLI, SFDX, Workbench, Developer Console

Other Technologies: HTML, CSS, JavaScript, SQL, Vlocity/OmniStudio (OmniScripts, DataRaptors, Integration Procedures, FlexCards, Decision Matrices, Expression Sets)

EXPERIENCE

Accenture — Application Development Analyst, Gurugram

Sept 2022 – Present

- 3.5+ years delivering Salesforce Administration, Development, and Integrations across enterprise-scale projects serving 500+ users.
- Designed and architected end-to-end Salesforce solutions; collaborated with stakeholders and clients to translate complex business requirements into scalable, maintainable technical designs.
- Developed Apex classes, triggers, and test classes maintaining **90%+ code coverage**; built reusable, optimized Lightning Web Components (LWC).
- Automated 15+ business processes using Salesforce Flows, **reducing manual effort by 40%** (~20 hrs/week saved across teams).
- Implemented Batch Apex, Queueable Apex, Future Methods, and Scheduled Jobs for bulk data processing within Governor Limits.
- Engineered REST and SOAP integrations using secure callouts, Named Credentials, and Connected Apps for 5+ third-party systems.
- Designed and enforced Salesforce security model: profiles, permission sets, sharing rules, OWD, and field-level security (FLS).
- Delivered end-to-end Vlocity/OmniStudio components — OmniScripts, DataRaptors, FlexCards, Integration Procedures, Decision Matrices.
- Leveraged Platform Events and Streaming API for real-time event-driven architecture across integrated systems.
- Built and configured Agentforce agent actions and Einstein features; used Prompt Builder for AI-driven workflow automation.
- Managed CI/CD pipelines via Azure DevOps (SFDX + Salesforce CLI) with **zero rollback incidents**; owned production deployments and performance tuning.
- Mentored junior developers on Apex best practices, LWC patterns, and Salesforce security model implementation.

Accenture Pinnacle Award — Awarded for exceptional performance, problem-solving, and impactful delivery on high-priority Salesforce projects.

CERTIFICATIONS

- Salesforce Certified Administrator
- Salesforce Certified Platform App Builder
- Salesforce Certified Platform Developer I
- Salesforce AI Associate

PROJECTS

Custom Case Tracking Solution

Sales Cloud / Service Cloud

- Built Apex Triggers for real-time Case status capture and Batch Apex for historical backfill; **improved SLA tracking accuracy by 35%** and ensured full compliance.
- Calculated status-wise Case duration via Apex & SOQL; built Reports and Dashboards that **reduced average case resolution time by 25%** through better lifecycle visibility.

Tech: Salesforce, Sales Cloud, Service Cloud, Apex, Batch Apex, SOQL, Reports, Dashboards

Liquor & Cannabis Board Compliance Solution

Accenture

- Delivered full Salesforce compliance solution from scratch (live & under maintenance); worked directly with government client stakeholders to customize objects, record types, validation rules, layouts, and dashboards.
- Built LWC/Aura components, automated workflows via Flows (**cutting processing time by 30%**), and designed OmniStudio components (OmniScripts, DataRaptors, FlexCards, Integration Procedures).
- Implemented security model (profiles, roles, permission sets, FLS) and managed CI/CD deployments via Azure DevOps.

EDUCATION

B.E. – Electronics and Communication Engineering | MMMUT, Gorakhpur

June 2018 – July 2022
