

Aditya Singh

Salesforce Developer

Email: adityasinghmmut@gmail.com | Phone: 9532019248

LinkedIn: linkedin.com/in/aditya-singh-760742216

Objective

Salesforce Developer with 3.5+ years of experience across Salesforce Administration, Apex development, Lightning Web Components (LWC/Aura), Integrations, and Vlocity/OmniStudio. Strong expertise in building scalable, secure, and high-performance Salesforce solutions using declarative and programmatic approaches. Hands-on experience with Agentforce concepts, Salesforce AI, automation, and DevOps (Azure DevOps). Passionate about optimizing CRM processes, improving user experience, and delivering business-driven solutions in enterprise environments.

Skills

Salesforce Platform: Salesforce Administration, Security Model, Profiles, Roles, Permission Sets, Sharing Rules, Flows (Screen, Record-Triggered, Scheduled), Validation Rules, Reports, Dashboards, Data Loader, Sales Cloud, Governor Limits, Unit Testing

Development: Apex Classes, Triggers, Test Classes (Best Practices & Code Coverage), LWC, Aura Components, Visualforce Pages, SOQL, SOSL, Batch Apex, Queueable Apex, Scheduled Jobs

Integrations & APIs: REST API, SOAP API, JSON, Callouts, Named Credentials, Third-Party System Integrations

AI & Automation: Salesforce AI Associate, Agentforce Concepts (AI-Driven Automation, Intelligent Workflows), Einstein Features, Process Automation & Optimization

Tools & DevOps: Azure DevOps (CI/CD Pipelines, Release & Deployment Management), Git, Version Control, Visual Studio Code

Other Technologies: HTML, CSS, JavaScript, SQL, Vlocity / OmniStudio (OmniScripts, DataRaptors, Integration Procedures, FlexCards)

Experience

Application Development Analyst, Accenture – Gurugram

Sept 2022 – Present

- 3.5+ years of experience in Salesforce Administration, Development, and Integrations.
- Designed and delivered end-to-end Salesforce solutions; translated business requirements into scalable technical solutions.
- Developed Apex classes, triggers, and test classes following best practices; built reusable and optimized LWCs.
- Automated business processes using Salesforce Flows, reducing manual effort by 40%.
- Implemented Batch Apex, Queueable Apex, and Scheduled Jobs for bulk processing within Governor Limits.
- Developed REST and SOAP integrations using secure callouts and Named Credentials.
- Implemented Salesforce security models including profiles, permission sets, sharing rules, and FLS.
- Worked on Vlocity / OmniStudio using OmniScripts, DataRaptors, FlexCards, and Integration Procedures.
- Supported Salesforce AI initiatives using Agentforce concepts and Einstein features.
- Managed CI/CD deployments using Azure DevOps with zero rollback incidents; provided production support and performance tuning.

Pinnacle Award – Accenture

Received the prestigious Accenture Pinnacle Award for exceptional performance, problem-solving, leadership, and impactful delivery on high-priority Salesforce projects.

Certificates

- Salesforce Certified Administrator.
- Salesforce Certified App Builder.
- Salesforce AI Associate.
- Salesforce Certified Platform Developer 1.

Projects

Custom Case Tracking Solution

- Developed a custom solution to track Case status transition durations; built Apex Triggers for real-time capture and Batch Apex for historical backfill for SLA compliance.
- Calculated status-wise Case duration using Apex and SOQL; created Reports and Dashboards to monitor Case lifecycle and SLA adherence.

Tech Stack: Salesforce, Sales Cloud, Service Cloud, Apex, Batch Apex, SOQL, Reports, Dashboards

Liquor & Cannabis Board (Accenture)

- Delivered end-to-end Salesforce compliance solution from scratch (live & under maintenance); customized objects, record types, validation rules, page layouts, and dashboards.
- Built LWC & Aura Components, automated workflows via Flows, and designed OmniStudio components (OmniScripts, DataRaptors, FlexCards, Integration Procedures).
- Implemented Salesforce security (profiles, roles, permission sets, sharing rules, FLS) and managed CI/CD deployments via Azure DevOps.

Education

MMMUT GKP, Bachelor of Engineering in Electronics and Communication Engineering (ECE)

June 2018 – July 2022
